

Diesel gasoil - additives 1 : 100

Filterability improver

Art. No. 30952

Description

The cloud point is a very important and critical characteristic value, at which the kerosene crystals begin to precipitate out of the gasoil.

The diesel gasoil additive 1:100 acts preventively against the turbidity of the gasoil (diesel fuel and heating oil extra light).

Application

Add 1.0 - 1.2 % of the diesel gas oil additive to the diesel/heating oil.

Note

The additive must always be used preventively, i.e. before the diesel fuel becomes cloudy. Kerosenes that have already precipitated cannot be dissolved again by adding Dieselgasoeel Additive.

Transport

ADR/SDR UN 1993, Class 3, Packing group III

Disposal

LVA VeVA / EAK: 14 06 03
