## STRUB Lead substitle 9598

Additive for unleaded gasoline

Art.-No. 30548

## Description

Additive for unleaded gasoline. With this additive, unleaded gasoline becomes a full replacement for leaded gasoline. Necessary for all 2 -stroke and 4 -stroke gasoline engines that would have to run on a leaded fuel due to soft valve seats in the engine design. By adding BLEIERSATZ 9598, unleaded gasoline can be refueled without any problems. The addition is made before refueling and can also be used for older injection engines with and without turbo.

## Note

This additive has been used successfully since 1990 in Austria, 92 Sweden, 92 Norway, 93 Finland, 94 Denmark and 96 the Netherlands.
Leaded gasoline is no longer available in these countries.

## Application

1 ml to 1 liter of unleaded gasoline or
1 liter to 1000 liters of unleaded gasoline

## Features and advantages

- protects the valve seat
- keeps the valve seat clean
- prevents valve deformation and wear
- prevents deposits
- reduces wear
- increases engine life
- mixes with gasoline by itself
- does not contain heavy metals

Technical data

| Color |  | light yellow |
| :--- | :---: | :---: |
| Density at $20^{\circ} \mathrm{C}$ | $\mathrm{g} / \mathrm{cm}^{3}$ | 0.825 |
| Flash point | ${ }^{\circ} \mathrm{C}$ | 71 |
