

STRUB Antifoam 53

For all water-miscible cooling lubricants

Art.-No. 32405

Description

STRUB Antifoam No. 53 is a whitish, low viscosity defoamer which is very easy to incorporate, for all watermiscible cooling lubricants.

Application

STRUB Antifoam No. 53 is used temporarily for foam peaks (shaving foam e.g. caused by the application of cleaning agents). The product shows no undesirable properties in surface treatment.

Dosierung

Depending on the foam quantity, usually 0.1% to a maximum of 0.5% is added to the emulsion quantity. STRUB Antifoam No. 53 is easily dispersible in the emulsion. It should nevertheless be added at points of high fluctuation (e.g. emulsion return or suction pump).

Technical data

Appearance	visual	white
Density at 20°C	g/ml	1.00
pH value	Pur	4-7

Transport

Disposal

LVA VeVA / EAK:	16 03 06

Note

Store frost-free. Shake or stir after prolonged storage.
