

STRUB Gas Engine Oil JMS 320 Plus

Gas engine oil for operation with landfill, sewage or Biogas and for gas engines operating with special gases

Art. No. 33254

Description

STRUB Gas Engine Oil JMS 320 Plus is a special oil for use in gas engines. Specially selected base oils and a newly developed additive package guarantee excellent oxidative and thermal stability.

Application

STRUB Gas Engine Oil JMS 320 Plus is primarily suitable for operation with landfill gas, sewage gas or biogas, as well as for gas engines in operation with special gases, where increased pollutant loads are to be expected. Please observe the manufacturer's instructions!

Optimum oil change intervals, according to the recommendations of the gas engine manufacturers. Accompaniment and advice by laboratory analyses necessary.

Features and advantages

- good operational reliability and oil life
- very high alkalinity reserve
- reliable wear and corrosion protection
- reduced deposits in the combustion chamber
