

# Band skimmer 200-B

Oil skimmer

Art.-No. 920000

## Discription

Belt skimmer for removal of unwanted tramp and surface oils. The belt skimmer type 200-B is a very compact and efficient oil skimmer. It is particularly suitable for the removal of tramp oils in cooling lubricant tanks of machine tools.

The belt skimmer type 200-B has a flexible base that can be bent by hand so that the skimmer always has the right working height and angle, no matter how, for example, the cooling lubricant tank of the machine tool is designed.

## Fields of application

- in cooling lubricant tanks of machine tools
- in process baths, etc.
- With flexible base
- incl. 1 polypropylene skimmer belt

## Technical Data

Weight	1,3 kg
Belt length 200-B	400 - 2000 mm
Bandwidth	30 mm
Oil flow rate max.	3 L/hour
Bath temperature max.	40 °C
pH working range	pH 5 - 10
Power consumption	0.004 kW, 4 VA
Power supply	230/24 VAC, 50 Hz
Article dimensions	170 x 235 x 85 mm (LxHxW)
Diameter drain pipe	25/23 mm
Application areas	Removal of floating tramp oils, oil-water separation, optimization of cooling lubricants
Fields of action	Deoiling of circuit fluids
