

Barrel key STOG

Combined sealing cap break-off and barrel key

Art.-No. 951020

Description

Our barrel wrench STOG allows you to open sealing caps and barrel closures effortlessly with just one handle. Its special design makes it perfect for safely lifting off tin sealing caps and easily unscrewing barrel closures.

The tool is made of high quality galvanized steel, which ensures long life and high resistance. It has been specially designed to meet the requirements of Tri-Sure 3/4" and 2" fittings, and thus fits perfectly on these common sizes. Thanks to its ergonomic shape, the tool fits snugly in your hand for comfortable operation. Whether you need to open sealing caps or loosen drum caps, our tool makes the task simple and efficient. With just one tool, you thus have the solution for different types of closures at hand. You save time and effort by not having to search for different tools. Our tool is versatile and makes your everyday work easier.

Rely on the quality and reliability of our barrel key STOG to optimize your workflow.

Advantages

- Opening of sealing caps and drum closures with only 1 tool
- for safe lifting of metal sealing caps and unscrewing of drum closures
- galvanized steel
- for all Tri-Sure 3/4" and 2" screw connections
