

# KSS aeration pump

With magnetic attachment

Art.-No. 954006

## Description

With the help of the cooling lubricant aeration pump, the cooling lubricant is enriched with oxygen and at the same time the buoyancy of oil and dirt particles is increased. The oil film has no possibility to close, which means that the coolant is not airtight and bacteria and fungi cannot multiply. The suspended foreign matter can be removed excellently by means of a belt skimmer.

## advantages

- aeration of the KSS is strongly recommended
- suitable for continuous operation
- low operating costs

## Technical Data

Performance	180 liter per hour
housing	153 x 75 x 82 mm
Operating voltage (via 230V plug-in power supply)	3 - 12 V
Strim recording	0.38 A
