

Mobile filter unit for hydraulic oil

Art.-Nr. 952028

Description

The mobile bypass filter is equipped with 2 filter housings. The filtering process is not interrupted when the filter cartridge is changed due to a 3-way ball valve. The contamination of the filter cartridge can be read on a pressure gauge.

The information in this technical data sheet is based on general knowledge and possible applications. Strub + Co. AG is not liable for damage resulting from improper use of the products. The measurement and production tolerances customary in the industry apply to the characteristic data given. In general, no legal binding force can be derived from these data. Our products are subject to continuous further development. Therefore, Strub + Co. AG reserves the right to change all technical data in this data sheet at any time and without prior notice.
