

## pneuMATO-fill ZSA Filler 25 kg

with inner diameter 300-335 mm

Art.-No. 953054

---

### Description

Pneumatic filling pump for, among other things, filling via ZSA connector of central lubrication systems. The device consists of the pneumatic pumping unit, 2m hose DN 12 with ZSA coupling according to ISO standard 7241B DN6/R1/4, a grease follower piston as well as a centering cone

### Technical Data

Delivery rate at approx. 8 bar inlet pressure approx. 1800 g/min. (multi-purpose grease NLGI 2 at 20°C)

Pressure output approx. 24 bar, pressure ratio: 1:3

Connection thread: 1/2"

Weight: 11.168 kg

The information in this technical data sheet is based on general knowledge and possible applications. Strub + Co. AG is not liable for damage resulting from improper use of the products. The measurement and production tolerances customary in the industry apply to the characteristic data given. In general, no legal binding force can be derived from these data. Our products are subject to continuous further development. Therefore, Strub + Co. AG reserves the right to change all technical data in this data sheet at any time and without prior notice.
