

STRUB Zinkol Circular grease

Sawing, cutting and anti-corrosion grease

Art.-No. 30460

Description

STRUB Zinkol Circular grease is a semi-synthetic, non-toxic, well-adhering universal cutting and corrosion protection grease with good high-pressure properties and a wide range of applications.

The product was developed in cooperation with the Swiss light metal industry. No built-up cutting during aluminum machining.

STRUB Zinkol Circular grease is recommended for the following industries: Light metal construction, machine stores, locksmith stores, wood construction and sawmills, plumbing and sanitary stores and many more.

Application

- Apply to both sides of the saw blade teeth during rotation. Chips no longer stick; thus no more sticking and jamming.
- For the lubrication of jigsaw blades in all metals. The use of STRUB Zinkol Circular Grease eliminates the need to rework cut edges on most materials.
- For thread cutting (internal and external threads) up to strengths of 140 kg.
- For greasing screws (protects against rust, weak acids and alkalis).
- For stripping tools on oil stones.
- For assembly work (no more need to carry oil).
- For sealing two threads to be screwed into each other with or without hemp.

Delivery sizes

STRUB Zinkol Circular grease, large	∅	5.9 cm
	Length	20.0 cm
	Content	370.0 gr

STRUB Zinkol Circular grease, small	∅	3.0 cm
	Length	6.0 cm
	Content	28.0 gr
