

STRUB Vulcomet Protection 8033

Corrosion protection fluid and dewatering fluid, VOC 90%.

Art.-No. 30597

Description

STRUB Vulcomet Protection 8033 can be used as cleaner and corrosion protection. The product is characterized by its excellent water separation properties.

STRUB Vulcomet Protection 8033 removes oils, greases, tar, bitumen and dust as well as all common contaminants on machines and workpieces. Cleaned surfaces and parts are subsequently protected against corrosion and can be stored temporarily at room temperature for further processing.

Application

The application possibilities are almost unlimited, all metals can be cleaned with STRUB Vulcomet Protection 8033.

The main use of the product is in metalworking stores, car garages, locksmith's shops, electrical workshops of all kinds, etc. Everywhere where quick and thorough cleaning is required.

It is used undiluted in the state of delivery.

Features and advantages

- an extremely good wetting capacity
- due to the formulation very skin-friendly, environmentally friendly, with very low toxicity
- well compatible with most materials and surfaces
- low aromatic content and pleasant odor
- is characterized by very long life

Technical data

Density at 20°C	g/cm ³	ca. 0.760
Flash point	°C	42
Initial boiling point	°C	155
Boiling point	°C	> 250
Viscosity at 40°C	mm ² /s	1.0
Protection time at:		
- Indoor storage	Months	6
- External storage	Months	1-3

Transport

ADR/SDR Class 3, packing group III
UN-Code 1993

Disposal

LVA VeVA / EAK 14 06 03
