

# STRUB Molymagus NL-4 C

Grease with excellent emergency running properties

**Art.-No. 30453**

---

## Description

STRUB Molymagus NL-4 C is a biodegradable grease for applications where black greases have been used until now. Special synergistically acting white solid lubricants give this grease good pressure absorption properties as well as excellent emergency running properties.

## Application

Especially for heavily loaded sliding points, spiders on construction machinery, rock crushers, hoists, dredgers, docks, etc.

## Features and advantages

- resistant to flexing, high rolling stability, thus low change in consistency under shear, flexing and impact loads
- high rust protection effect, resistant to water
- very high lubricating effect, pronounced EP properties
- resistant to aging, good oxidation stability even at high temperatures
- good storability, easy to convey

## Technical data

Color	visual	white
Density	g/cm <sup>3</sup>	0.931
Drop point	°C	None
Penetration	10/mm	245 - 275
NLGI class		2 - 3
Thickener system		Aerosil
Oil viscosity at 40°C	mm <sup>2</sup> /s	1000
Application range	(cSt)	- 25 to + 140
Biodegradable according to CEC-L-33 T-82	°C	> 90 %

## Transport

ADR/SDR                                      No dangerous goods

## Disposal

LVA VeVA / EAK:                              12 01 12
