

STRUB concrete solvent

Liquid concrete and cement haze remover

Art.-No. 30547

Description

STRUB Concrete Remover quickly and reliably dissolves concrete residues, cement and lime haze, lime efflorescence as well as rust and oxide layers on vehicles, machines, tiles and equipment. The product penetrates under the soiling and destroys the adhesion to the substrate. Subsequently, the soiling can be removed without major mechanical effort. Facades, exposed aggregate concrete surfaces and joints regain a clean, contrasting appearance.

Application

STRUB Concrete Remover is used as a concentrate or in aqueous dilution. It can be applied by brush, broom or suitable spraying equipment. After a short exposure time, the treated surfaces are thoroughly washed with clear water or a high-pressure cleaner. Repeat the process in case of extreme soiling.

Safety note

Concrete residues and mortar crusts	concentrated up to 1 : 1 with water
Concrete haze and residues	1 : 3 to 1 : 10 with water
Stubborn calcifications	1 : 5 to 1 : 10 with water
Rust and oxide residues	1 : 5 to 1 : 10 with water

Transport

ADR/SDR UN No. 1805, Class 8, C2, Packing group II

Disposal

LVA VeVA / EAK: 07 06 01
