

STRUB Monafix Alu Nuova

Aqueous foaming metal cleaner

Art.-No. 30156

Description

Acidic special cleaner for brightening aluminum + stainless steel and removing flash rust from railroad cars, tank cars, tank trucks and containers.

STRUB Monafix Alu Nuova contains hydrogen fluoride, other acidic components and auxiliary substances.

Application

STRUB Monafix Alu Nuova can be applied manually with a sponge, a pressure accumulator sprayer or a foaming device, depending on the degree of soiling in the mixing ratio. Allow to act briefly and rinse thoroughly with a high-pressure cleaner or strong water jet.

Mixing ratio

Railroad cars:	1 : 1 with water
Tanker car:	1 : 2 with water
Aluminum cleaning:	1 : 2 with water
Brighten aluminum: (e.g. tank car insulation).	1 : 2 - 1 : 3 with water

Safety note

The cleaning agent may only be used by authorized persons. Personal protective equipment (face protection, protective neoprene gloves, rubber boots and protective clothing) must be worn! Please observe this technical data sheet and the safety data sheet! After a contact time of more than 2 hours, the protective gloves must be replaced (permeability of hydrofluoric acid)!

Transport

ADR/SDR UN-Nr. 2922, Kl. 8, VP II

Disposal

LVA VeVA / EAK: 07 06 01
