

STRUB Monafix Steinex 100

Aqueous, very strong acid floor cleaner (joints)

Art.-No. 31627

Description

STRUB Monafix Steinex 100 quickly and reliably dissolves heavy soiling, concrete and lime residues. The product penetrates under the soiling and destroys the adhesion to the substrate. Subsequently, the soiling can be removed without major mechanical effort. It also removes "concrete milk" residues.

Application

The application can be carried out by brush, broom or suitable spraying equipment. After a short exposure time, the treated surfaces are thoroughly washed with clear water or a high-pressure cleaner. Repeat the process in the case of extreme soiling.

Excellent also for removing urine scale in agriculture or for use in the household, as a toilet stain.

Safety note

Cleaning agent may only be used by authorized persons. Personal protective equipment (face protection, protective gloves made of nitrile, rubber boots and protective clothing) must be worn! Please observe this technical data sheet and the safety data sheet! NOT suitable for non-ferrous metals! Preliminary tests are always required!

Mixing ratio

Light soiling	1 part concentrate; 10 parts water
Heavy soiling	1 part concentrate; 5 parts water

Transport

UN-Code 3264
ADR/SDR Class 8, C1, packing group II

Disposal

LVA VeVA / EAK: 07 06 01
