

# **STRUB Monafix Descaler 40**

Descaler for coffee makers and kettles

Art.-No. 30516

## **Description**

STRUB Monafix Descaler 40 is suitable for removing limescale from coffee machines, water boilers, cookware and instantaneous water heaters. The gentle, fast and food-safe descaler does not attack metals, rubber and plastics - completely without foaming in the descaling process.

## **Application**

In the case of normal limescale, apply the descaler in a concentration of 1:10, allow to act for 5-10 min and, after complete descaling, rinse thoroughly several times with clear water. Repeat the process if there are lime residues. In case of heavy calcification, we recommend a concentration of 1:2. Application on coffee machines: Run the descaler program and rinse afterwards at least 3-5 times with fresh water.

#### **Technical data**

pH value (new)	1
Density	1.05
Biodegradability (according to CEC-L-33-A-93)	97 %

### Safety note

**Caution:** Acidic. Avoid contact with skin and eyes. Keep out of the reach of children. Further information: see safety data sheet

#### **Transport**

ADR/SDR No dangerous goods

# Disposal
