

STRUB Stabilize Emulsifier O

Emulsifier for biobalanced and biostatic cooling lubricants

Art.-No. 31521

Description

STRUB Stabilize Emulsifier O is an adjusting agent to re-stabilize an emulsion.

Application

Anywhere separation, oil separation are detected. Important that it is emulsion separation and not tramp oil. Add slowly with strong emulsion flow / flow rate.

Dosage

0.05 - 0.1 Vol-%.

Technical data

Color	Gardner	2
Density 20°C	g/cm ³	1.0
Refractive index	nD20°C	1.447

Storage

Do not store below 10°C.

Transport

ADR/SDR No dangerous goods

The information in this technical data sheet is based on general knowledge and application possibilities. STRUB + Co. AG is not liable for damage resulting from improper use of the products. The industry-standard measurement and production tolerances apply to the specified characteristic. Generally, no legal binding can be derived from these data. Our products are subject to continuous further development. Therefore, STRUB + Co. AG reserves the right to change all technical data in this data sheet at any time and without prior notice.
